# DESIGN

# **1961 ANNUAL INDEX**

Volume 33 - January to December

Including 26 regular issues of MACHINE DESIGN plus The Seals Book, The Bearings Book, The Ferrous Metals Book, and The Electric Motor Book. Only articles and editorial items one-half page or larger are indexed.

### AUTHOR INDEX

Adler, Rodney R.—"Bil Whitney's Uniformity System," Jan. 5, p. 108
Arthur, Merwyn E, and Lee E. Dunbar—"Quadratics-Cubics-Quartics,"
Sept. 14, p. 193
Axtheim, R. E.—"Definite and Special-Purpose Motors—DefinitePurpose Motors." Electric Motor Book, p. 119

Baker, James K.—"Vinyl-Metal Laminates," April 27, p. 102
Baniak, E. A. and G. A. Kohl—"Fatigue Life of Ball Bearings," June 8, p. 190
Barnes, Samuel E.
"Bearing Loads," Bearings Book, p. 13
"Bearing Mountings," Bearings Book, p. 62
Barnwell, J. H.—"The Double-Eccentric Speed Reducer," Aug. 17, p. 125

Barron, Randall F.—"Superinsulations," March 2, p. 116
Baxter, Meriwether L. Jr.—"High-Reduction Hypoids," April 27, p. 142

Baxter, Meriwether L. Jr.—"High-Reduction Hypoids," April 27, p. 142
Belanger, Harold
"Selection of Bearing Type," Bearings Book, p. 31
"Ball-Bearing Characteristics," Bearings Book, p. 40
"Relier-Bearing Characteristics," Bearings Book, p. 47
"Selection of Bearing Size," Bearings Book, p. 57
Benson, Arcs—"Reverted Gear Train," June 22, p. 147
Blizard, J. R.—"Glasses and Ceramics," July 6, p. 166
Bockhoff, Frank J.—"Large Plastic Parts," Sept. 14, p. 190
Booser, E. R.—"Bearing Materials and Properties," Bearings Book, p. 95

p. 95
Borries, Fred.—''Finishing of Plastic Parts,'' March 2, p. 124
Bradbury, B. W.—''Temperature Rise and Insulation,'' Electric Motor
Book, p. 31
Brickman, Arthur D.—''Conical-Disc Spring.'' March 16, p. 141

January 4, 1962

Circle 1-10 on Page 19 for extra copy.

Brooke, E. Raymond—"Project Pianning," August 3, p. 76 Brooks, K. A.—"Statistical Dimensioning Program," Sept. 14, p. 140 Bucci, George A.—"Ilverted Sider-Crank Mechanisms," March I Bucci, ( p. 159 B man. Donald J. and Frank H. Smith-"Hole-Position Tolerances,

Jan. 5, p. 183 uxton, V. 2 .-- 'Driven Machine Mechanics.' Bloctric Motor Book, Buxto

Cade, J. Weldon—"Design Considerations for Small Housings," May 25, p. 132 Campbell, John "Fractional Horsepower Motors.

Camposi, John
"Fractional Horsepower Motors,
Fart 1: Electrical Considerations," May 11, p. 196
Fart 2: Mechanical Considerations," May 25, p. 128
Fart 2: Mechanical Considerations," May 25, p. 128
Fractional-Horsepower Motors," Electric Motor Book, p. 54
Carebauer, Wm. F.—"Design of Cast Bearings," Bearings Book,

Carenbauer, Wm. F.—"Design of Case Bearings.
p. 104
Carr. John T.—"Single-Span Rigid Frames," June 8, p. 185
Carrell, Ted, John A. Jordan, and Roy Young—"Seals for Hard Vacuums," May 25, p. 134
Cawley, W. E.—"The Freetressed Shaft," Feb. 2, p. 98
Chandler, Roy D.
"Helical Spring Design," March 20, p. 131
"Compression-Spring Design," Oct. 28, p. 138
Coleman, Wells—"Designing Bevel Gears." Nov. 23, p. 127
Condon, W. T.—"Universal Joints," Nov. 23, p. 172
Connors, C. J., C. F. DeVarney, and J. P. Lynch, "Copper-Alloy Extrusions," Sept. 28, p. 158
Covner, Bernard J.—"Measuring the Engineer," May 25, p. 112
Crankshaw, E.—"Design of Strip-Type Bearings," Bearings Book, p. 112

Crankshaw. E.—"Design of Strip-Type Bearings," Bearings Book, p. 112
Crum, Ralph G.

"Fatigue in Metal Joints,
Fart 1: Mechanical Joints," March 30, p. 108
Fart 2: Welded Joints," April 13, p. 176
Cummings, H. R., F. B. Stulen, and W. C. Schulte

"Freventing Fatigue Failures,
Fart 1: Basic Factors," April 27, p. 116
Fart 2: Geometric Strees Concentrations," May 11, p. 191
Fart 3: Heat Treatment and Euricomeent," June 28, p. 146
Fart 4: Surface Treatment and Environment," June 8, p. 185
Fart 5: Calculating Fatigue Streege," July 6, p. 154
Cserniak, E.—"Neutral Axis of an Unsymmetrical Beam," Nov. 23, p. 126

Daniels, C. M. and R. E. Fenton - "Internally Linked Bellows Joints," Sept. 14, p. 187 avis, J. F.—"De Integral-Horsepower Motors," Electric Motor Book,

Davis, J. F.—"De Integral-horsepower accounts, p. 100
De Hart, A. O.—"Basic Bearing Types," Bearings Book, p. 4
DeVarney, C. F., J. P. Lynch, and C. J. Connors, "Copper-Alloy Extrusions," Sept. 28, p. 186
Diamond, Gerald X. and Walter Eggu-—"Fillet Rolling," Jan. 8, p. 112
Donlevy, Al and Jack E. Y. Hum—"Strength of Refractory Metals,"
May 11, p. 244
Dow, James—"Columns Loaded Between Supports," Feb. 16, p. 167
Duguid, H. Alan — "Thin-Race Bearings," March 2, p. 57
Dunber, Lee E. and Merwyn E. Arthur—"Quadratics-Cubics-Quartics,"
Sept. 14, p. 193

Dunbar, Lee E. and Merwyn E. Ariana Sept. 14, p. 193 Dunham, Bruce M.—"Lubricants—Oils and Greases," Bearings Book,

nie, Heber H.-"Metallic Gaskets-General Types," Scale Book, 103

Easton, L. H. and A. L. Sebok.—"Universal Motors and Motor Parts,"

\*\*Electric Motor Book, p. 68

Egger, Walter and Gerald X. Diamond.—"Fillet Rolling," Jan. 5, p. 112

Elimann, William.—"Water-Glycol Hydraulic Finida," Nov. 9, p. 193

Elimon, Edwin and Richard J. Kavanaugh.—"Timing Motors," \*\*Electric Motor Book, p. 134

Esty, P. B.—"Internal-Combustion Engines," March 30, p. 134

Evans, David C.—"Learning to Live with a Computer," Oct. 28, p. 120

Everett, Malcolm H. and Howard G. Gillette
"Moided Packings.—Equeese Type," \*\*Esals Book, p. 65

"Static O-Ring Seals," \*\*Beals Book, p. 100

Felstein, Milton—"Self-Checking Interpolation," April 27, p. 151
Feng, R.—"Cylindrical Pressure Vessels," Dec. 21, p. 151
Fenton, R. E. and C. M. Daniels—"Internally Linked Bellows Joints,"
Sept. 14, p. 187
Fitsgerald, A. J. and Rowen Gile—"Technical Specifications," July 6, p. 112 Fitzgerald, A. J. and Rowen Gile—"Technical Specifications," July 6, p. 112
Forrester, J. R. Jr., T. H. Risk, and R. P., Schmuckal—"Thermoplastics," Oct. 12, p. 207
Fox. George H. Jr. and Hugh H. Muller—"Chemically Milled Structures," April 27, p. 128
Franier, E. C. and Earl M. Smoley—"Nonmetallic Gaskets—Materials,"
Scale Scok, p. 90
Freshich, R. C. and E. E. Leird
"Fracision Snap-Action Switches,
Fart 2, March 30, p. 118
Fart 2, March 30, p. 116
Frohrib, Darrell A.
"Flexible Beam Suspensions,
Fart 1: The problem . . design approach . . . resonant-frequency
charts," July 8, p. 134
Fart 2: Frecalculated Coefficients," July 20, p. 162
Fuchsluger, John H. and Glenn F. Hyde—"Materials for High-Temperature Seals," Dec. 21, p. 154

Garner, Russell H.—"Inserts in Light-Metal Castings," August 3, p. 97 Gastineau, R. L.—"Metallic Gaskets—Metallic O-Ring Type," Seals Book, p. 113

Gensheimer, J. R.—"Flexible Couplings," Sept. 14, p. 154
Gillette, Howard G. and Malcolm H. Everett
"Modded Packings—Squeeze Type," Seals Book, p. 68
"Static O-Ring Seals." Seals Book, p. 100
Gile, Rowen and A. J. Fitzgrald—"Technical Specifications," July 6, p. 112
Glover, John H.—"Planetary Gear Train Ratios," August 3, p. 125
Glover, John H.—"Nonstandard Crossed Helical Gears," June 8, p. 186
Glyman, J. R. Gorcey, and E. Green—"Explosive Forming," April 13, p. 138
Gonzales, J. I.—"Air-Gap Heat Transfer," Feb. 2, p. 131
Goodman, Thomas P.
"Mechanism Design,
Part 4: Inversion," Jan. 5, p. 126
Gorcey, Richard—"Filament-Wound Pressure Vessels," June 22, p. 178
Gorcey, R. J. Glyman, and E. Green—"Explosive Forming," April 13, p. 138
Gray, Albert Woodruff

p. 188
Gray, Albert Woodruff
"Commercial Success of Patents," June S. p. 164
"File-Wrapper Estoppel," Sept. 14, p. 184
"Double Fatenting," Nov. 9, p. 162
Green, E., R. Gorcey, and J. Glyman—"Explosive Forming," April 13, p. 188 pr. 458 Orekory, L. P.—"Multispeed Motors," Electric Motor Book, p. 105 Griffel, William—"Critical Speed of Shafts," O.t. 12, p. 203 Gwinn, James T. Jr.—"Terpact Loads," August 3, p. 105

Hansen, J. T.

"Dynamic Properties of Hydraulic Motors," Jan. 19, p. 132

"How to Use Servo Systems for Velocity Control." Dec. 21, p. 112

Hansen, John V. E.—"R & D Contract." Oct. 12, p. 164

Harker, R. J. and M. J. Rabins—"Molded Priction Materials," Jan. 5.
p. 156 is. Edwin A. and Walter E. Levine—"Audible Eignals," Nov. 9,

Harris. Edwin A. and Waiter E. Levine—"Audible Signals," Nov. 9, p. 188

Ratton, Roger E.—"Synthetic Hydraulic Fluids," Oct. 28, p. 156

Habton, Roger E.—"Cycloidal-Motion Cam Systems," Feb. 2, p. 102

Hebbeler, Charles B.—"Cycloidal-Motion Cam Systems," Feb. 2, p. 102

Hennies, Russ—"Elliph-Pressure Hydraulics," June 22, p. 140

Henney, A. S.—"Curved Flanges in Compression," Jan. 18, p. 163

Henson, J. H.—"A Twin-Head Capetan," Jan. 5, p. 147

Hess, E. F.—"Kigh-Strength Structural Adhesives," Jan. 5, p. 149

Hilsher, J. E.—"Wire-Rope Assemblies," August 3, p. 85

Hirch, Richard A.—"Gas-Operated Mechanisms," July 20, p. 171

Homitch, Joseph M.
"Introduction," Electric Motor Book, p. 4
"Synchronous Motors," Electric Motor Book, p. 15

Hopkins, R. Bruce—"Stepped Shafts and Nonuniform Beams," July 6, p. 159

Huff, Harry A., Thomas C. McGeary, Roland J. Westerholm, and Robert

L. Wolff—"Frame-Sprayed Coatings," Aug. 31, p. 82

Hughes, Raleigh C. and Elmer A. Roller—"Torque Motors," Electric Motor Book, p. 139

Hum, Jack K. Y. and Al Donlevy—"Strength of Refractory Metals,"

May 11, p. 244

Hutta, F. J.—"Laminated-Plastic and Vulcanized-Fiber Parts," May 11, p. 171 May 11, P. 27.

Hutta, F. J.—"Laminated-Plastic and Vucanization
p. 171.

Hyde, Glenn F. and John H. Fuchsluger—"Materials for High-Temperature Seals," Dec. 21, p. 154

Isenbarger, Robert O .- "Exclusion Devices," Seals Book, p. 15

Jensen, Preben W.—"Four-Bar Mechanisms," June 22, p. 173 Johnson, E. T.—"Design of Powder-Metal Bearings," Bearing Book, p.119 Dohnson, R. E.—"Selecting Lightweight Metals," Sept. 28, p. 188 Jordan, John A., Ted Carrell, and Roy Young—"Seals for Hard Vacu-ums," May 25, p. 134 Judd, John E.—"The Optical Wedge," March 16, p. 172

## SUBJECT INDEX

Editorial material in this section is classified according to the following system:

Wickey 1/5, 134 (7.0) AC Motor Control, Part 2: Across-the-Line Starting

- 1. Title.
- 2. Author's last name (see Author Index for complete name). Departments in regular issues are denoted by the following code:

News ...... Engineering News Scan ......Scanning the Field for Ideas DIA ......Design in Action

3. Date of issue. Machine Design Books are denoted by the following

..... Bearings Book (March 30) F ...... Ferrous Metals Book (Aug. 3) E ..... Electric Motor Book (Dec. 11)

- 4. Page number.
- 5. Number of pages in article or editorial item.

## **Electrical and Electronic Drives, Controls and Systems**

ELECTRIC MOTORS				
AC Motor Control, Part 2: Across-the- Line Starting	Wickey	1/5,	134	(7.0)
AC Motor Control, Part 4: Starting Multi- speed Motors	Wickey	2/2,	115	(7.0)
AC Motor Con' role, Part 5: Wound-Rotor Motors	Wickey	2/16.	152	(8.0)
AC Motor Control, Part 6: Characteristics and Control of Synchronous Motors	Wickey	3/2,	108	(6.0)
Fractional-Horsepower Motors, Part 1: Electrical Considerations	Campbell	8/11,	196	(9.0)
Fractional-Horsepower Motors, Part 2: Mechanical Considerations	Campbell	5/25,	123	(9.0)
DC Motor Control, Part 1: Motor Types and Characteristics	Wickey	7/20,	154	(6.0)
Induction Motors	Sherman	E,	6	(9.0)
Synchronous Motors	Homitch	E,	15	(7.0)
Direct-Current Motors	Wickey	E,	22	(4.0)
